No movement ever attained success without publicity and in the nature of things any movement requiring for its must have the invaluable aid of a common mouthpiece. The kind of publicity needed in this development is afforded by the local paper at every stage of its

progress. The local editor should be community's needs; he is wholly in spmpathy with and is an enthusiastic supporter of every undertaking that is calculated to make his own town bigger, better and more enterprising.

The first evidence, therefore, of a community's awakening is to be found in its local newspaper, and the first act of development is to enlist the services of But this fact must not be misconstru- tional Saddle Horse Futurity.

cured For the Blue Grass Fair.

A splendid last of shows, carnival features and riding devices has been rranged for the big Blue Grass fall at Lexington, the week of August 7th to 12th. All of these are furnished by Mr. Herbert A. Kline, of Flint, Mich. and are under his personal direction and management. No other man ic the country today has such a reputation or standing along his own partie ular line as has Mr. Kline. He knows what the people want and he always gives it to them. The fact that year after year he has gone back to the great state fairs of the north and west is the surest proof of the manner in which he satisfies his patrons.

Mr. Kline has this year not only the best aggregation of shows which he has ever managed, but the best that were ever put together on one ground After the close of the big Winnipeg exposition at Winnipeg. Canada, on July 22nd, he goes to the North Da kota State fair for the week of July 24th and then uses the intervening week to ship to Lexington so as to be ready to open at the Blue Grass fair on Monday, August 7th. EVERY HOUSEWIFE

knows the difficulty of keeping old style plumbing fixtures clean and attractive.

Even constant drudgery on the part of mistress or maid cannot give the old metallic bath tubs or "closed-in" lavatories that daintiness and charm which is so essential to the modern home.

There is one way out of this trouble-a sure and practical way. Let us install "Standard" plumbing fixtures in your home. They possess the beauty and snowy whiteness of fine china. Their brilliance and lustre can be maintained indefinitely with the minimum amount of labor.

Is your plumbing as good as it should be? If not, let us tell you how to better it.
